

# DOMETIC® AMERICANA PLUS REFRIGERATORS

**Loaded with features, the Americana Plus offers a dependable, hardworking refrigerator with an extra edge in convenience. Each double-door model combines a flexible, efficient design with an adjustable manual control that keeps foods at safe storage temperatures, regardless of the temperature outside.**

#### Excellent Performance

Five settings on the temperature control give the RVer plenty of choices to adjust the cooling power of the refrigerator. The manual controls are conveniently located at eye level to ensure easy fingertip operation.

The reliable absorption cooling system that is the hallmark of Dometic refrigerators comes standard on the Americana Plus. Its continuous absorption system and high-efficiency insulation ensure that foods stay fresh, beverages cold and energy costs low.

#### Convenient Features

Adjustable shelves, a meat locker and dual crispers extend the storage capacity of every Americana Plus refrigerator. Doors open a full 180 degrees to give easy access to the essentials – and the extravagances.

## Americana Plus Features

### Applications

Motorhomes • Fifth wheels • Travel trailers

### Performance Plus Reliability

Five temperature settings provide the ultimate in control.

Two-way power with automatic electronic LP ignition offers operational flexibility.

Absorption cooling system – with the same technology as premium models – ensures trouble-free operation.

Standby operation mode maintains service during power interruptions.

Climate control system saves energy and minimizes condensation.

Rugged steel frame – the toughest in the industry – keeps units sturdy mile after mile.

CFC- and HCFC-free foam insulation provides improved efficiency.

RM2862
