

CLASSIC

Holding on to pleasant memories, and moving on to make new ones... RVers know how to do that. When it's time to replace the RV refrigerator, the Classic by Dometic is their first choice. Its easy-to-use convenience features and clean, modern appearance add luxury and value to any coach or trailer. And because it's designed to install in most existing refrigerator openings, this change for the better is easier.

REPLACING AN OLDER REFRIGERATOR? THE CLASSIC IS THE PERFECT FIT.

Available in the two most popular sizes, the Classic is designed to fit existing cabinet openings for many older Dometic models, as well as some other brands.

CLASSIC

The Classic is built with the rugged Dometic solid steel frame. It has the features RVers want most, yet it's easy on the pocketbook.

New Dimensions

By using advanced insulation technology, the New Dimensions line provides 25% more capacity with the same outside dimensions as comparable models. More features and storage flexibility, too.

Royale

All Royale models have automatic/manual electronic controls that select the best available power—or let you decide. A truly impressive array of standard features and available options.

Americana

Single-door models with 3-way power and double-door 2-way models deliver Dometic's superior quality to even the most cost-conscious customers.

Classic

With a long list of features RVers want most, the Classic is designed to install in most existing refrigerator openings. Available in two popular sizes.
